Designing digitally supported and sustainability oriented **VET** **Excellence Centers** in Europe (DUNE-BB—EU)

Netzwerktagung Hannover, 03.09.2021

“Vorstellung des Leitfadens
zur Gestaltung
digitalunterstützter und
nachhaltigkeitsorientierter
Exzellenzzentren Beruflicher
Bildung in Europa?!”

Short presentation of the “DunE-BB-EU Guideline”

About the structure

What kind informations are in the DunE-BB-EU Guideline

1. Results of the DunE-BB-EU Network meetings analog and digital
2. Results of the digital DunE-Dialogue meetings
3. Results of research on the subject of CoVE, excellent VET, digitalization, su on the internet

- Introduction give a overview
- Issues and answers and design suggestions

This guide answers the following questions:

1. What is a Regional Centre of Excellence for Vocational Education and Training?
2. Why do regions need centres of excellence for vocational education and training?
3. How should a regionally digitally-supported and sustainability-oriented Centre of Excellence for Vocational Education and Training be designed from the point of view of users and vocational education and training partners? - Results of the quality discussions

4. What further information is useful for the transformation of VET learning venues into regional centres of excellence?

5. Necessary framework conditions for the successful transformation of VET learning venues into Centres of Professional Excellence (CoVEs)

In the following, answers and design proposals are presented, which provide guidance and decision-making support for policy-makers, but also suggestions for other VET actors who are not part of the DunE-BB-EU Vocational Education and Training Network in the further development (transformation) of their VET learning venues into regional centres of excellence for vocational education and training.

The creation of digitally-supported and sustainability-oriented regional centres of excellence for vocational education and training in Europe is a joint political and social task.
